

PROBABILITY ASSIGNMENT

MOHAMMAD IMRAN

December 28, 2022

1 problem

compute $P(A | B)$, IF $P(B)=0.5$ and $P(AB)=0.32$?

2 solution

By using property of conditional probability we have,

$$P(A|B) = \frac{P(AB)}{P(B)} = \frac{0.32}{0.5} = 0.64$$
